WASHINGTON, D.C. – AFPM Statement on the Administration's announcement of draft guidance on National Environmental Policy Act implementation:

"We support the Administration's announcement of draft guidance on National Environmental Policy Act implementation. We see this as an important step toward ensuring that the environment is protected while adopting needed reforms to the infrastructure permitting process. AFPM's member companies rely on a multimodal infrastructure network to transport feedstocks and products that make modern life possible and today's announcement supports needed energy infrastructure development."
