
The AFPM Labor Relations and Human Resources Committee crafts a program that offers thoughtful speakers, inspiring sessions and opportunities to learn from your expanded network. This conference provides key executives, and site-level Labor & HR employees, with industry-specific information to help maximize organizational expertise in navigating current workforce challenges, and opportunities for the future.

The conference format features speakers, panel discussions, interactive workshops, and breakout sessions on topics of interest to industrial relations and human resources personnel in the refining and petrochemical industry.

We look forward to having you join the discussion and be part of the 2020 Labor Relations and Human Resources Conference Community. Please check back regularly for the conference program and registration information.
