

# National Occupational and Process Safety Conference

## Safety Awards Program

AFPM congratulates all of this year's award recipients on their outstanding achievements.

Best wishes for a safe 2025.

### AFPM Safety Awards Program

The presentation of the AFPM Safety Award plaques is part of a comprehensive safety awards program which the Association's Safety & Health Committee has developed to promote safety performance achievements in the petroleum refining, petrochemical manufacturing, and contracting industries and to publicly recognize the excellent record of safety in operations which the industries and contractors have achieved.

AFPM Safety Awards are based on records kept for employees in accordance with OSHA record keeping requirements as defined by law and entered on the OSHA 300A summary form and API RP 754, Process Safety Performance Indicators for the Refining and Petrochemical Industries.

### Distinguished Safety Award

The highest honor, the Distinguished Safety Award (DSA) represents the top sites in industry that have demonstrated exemplary, long-term sustainable safety performance, program innovation, and leadership.

### Elite Platinum Safety Award

The second highest honor, the Elite Platinum award recognizes the top sites with outstanding safety performance, program innovation and safety leadership that received a DSA interview.

### Elite Gold Safety Award

The Elite Gold Award, recognizes facilities with safety performances in the top five percentile and that have demonstrated superior and consistent safety performance, program innovation and leadership.

### Elite Silver Safety Award

The Elite Silver recipients recognize the top 10% in industry that have attained top industry safety performance for the application year and have demonstrated excellent program innovation and leadership over time.

### Innovation Award

The Innovation Awards to recognize refineries, petrochemical facilities, and their contractors that have unique and innovative programs or practices that effectively improve the site's safety performance for either occupational or process safety.

# AFPM Safety Award Recipients

The 33rd Annual Safety Awards honors 37 regular member companies, 45 refineries, 64 petrochemical plants with 165 awards. Twenty-four associate member companies with 329 awards in their efforts in 120 facilities.

### Screening Criteria

In order to qualify for the DSA, a facility must first pass the screening criteria as described below:

1. A location must achieve the following requirements for the calendar year:
  - a. an employee total recordable incidence rate (TRIR) of 0.30 or less,
  - b. a contractor total recordable incidence rate (TRIR) of 0.30 or less,
2. A location must have had no employee workplace related fatalities and no non-employee (contractor, visitor, etc.) workplace related fatalities for the previous five consecutive years.

A location must answer **no** to the following questions:

1. Did the location experience a community evacuation or sheltering event, or worker/ contractor hospitalization (admitted for treatment) during the evaluation period?
2. Did the location experience a recordable injury where any of the following caused or contributed to the injury during the evaluation year?
  - Failure to isolate hazardous energy
  - Opening process equipment improperly prepared for maintenance
  - Improperly prepared or hazardous confined space
  - Improperly prepared or hazardous excavation
  - Any falls from height (>4 feet)
  - Any Tier 1 or 2 PSE
  - Contact/exposure to hazardous materials
    - HH2S/HF/hydrocarbon/corrosives/electricity/radiation
  - Crane or rigging failure
  - Caught by machinery or struck by debris, equipment, or falling objects
  - Electrical work or hot work on equipment not verified as hydrocarbon free
  - Failure to verify work permit
  - Failure in PPE chosen for the task or the incorrect PPE for the task
  - Use of the correct tool incorrectly or use of incorrect tool for the task
  - Deliberately bypassing safeguards or interlocks
  - Community evacuation or sheltering event
3. Did the location have any API RP Tier 1 Process Safety Events (PSE) that **required** notification to the National Response Center during the evaluation year?

### Selection Criteria

After passing the screening criteria, the candidate facility's overall safety performance record will be evaluated by the selection committee based on the applicant's written application. Those sites that are in the running for the DSA and Elite Platinum awards participate in in-person interviews with representatives of the DSA Selection Committee.

## Contractor Safety Achievement Award

This award recognizes maintenance contractors working a minimum of 20,000 hours per calendar year at a regular member facility.

### Section 1: Injury & Illness Data

The contractor company at the location submits this information for data analysis only:

Total Hours Worked

Total Fatalities (G)

Cases with Days Away From Work (H)

Cases with Job Transfer or Restriction (I)

Other Recordable Cases (J)

Days Away From Work (K)

Days with Transfer or Restriction (L)

DART

Total Recordable Incident Rate

### Section 2: Incident Severity Screening Criteria

The contractor company at the location must answer **no** to the following questions to be eligible for the award:

Did the contractor company at the location experience an event where an employee was hospitalized (admitted for treatment) during the evaluation period? Yes No

Did the contractor company at the location experience an event where an employee had an amputation during the evaluation period? Yes No

Did the contractor company at the location experience an event that resulted in a workplace fatality? Yes No

Did the contractor company at the location experience a recordable injury where any of the following caused or contributed to the injury during the evaluation period: Yes No

- Failure to verify hazardous energy isolation (lockout/tag out)?
- Opening process equipment not properly prepared for maintenance?
- Improperly prepared or hazardous confined space?
- Improperly prepared or hazardous excavation?
- Any falls from height (>4 feet)?
- Contact/exposure to hazardous materials (physical and chemical) such as:  
H<sub>2</sub>S, HF, Hydrocarbons, Corrosives, Electricity, Radiation, Excessive Heat, Etc.?
- Any crane or rigging failure?

### Section 3: Participation and Best Practices

The contractor company at the location must meet a minimum score of **50** points to be eligible to apply for the award

Site Safety Processes / Initiatives (Contractor Safety Forums, Focus Teams, etc.)

- Implements timely with an active participation level in the development/deployment = 10
- Implements as required with no additional involvement = 5
- Doesn't support or promote with minimal required participation = 0

Audit Process / Employee Observation

- Most employees and supervisors are involved and follow-ups are completed with action plans = 10
- Good involvement but no formal follow-up = 5
- No program in place = 0

Short Service Worker / Mentoring Process

- Formal mentorship program/process for new employees = 10
- Informal mentoring process = 5
- No program in place = 0

Near Miss Reporting Program

- Actively reports near misses with a reporting process that includes high potential and significant events = 10
- Informal near miss reporting process = 5
- No program in place = 0

Frontline Leadership Program

- Formal Frontline Leadership/Supervisor Development Program = 10
- Informal Frontline Leadership Program = 5
- No Program in place = 0

VPP

- OSHA VPP Recognition (Star, Demonstration, Mobile Workforce, Challenge, SHARP) = 10
- VPP Application Submitted / In Process = 5
- No Participation = 0
