SAFETY

AFPM CONGRATULATES ALL OF THIS YEAR'S AWARD RECIPIENTS ON THEIR OUTSTANDING ACHIEVEMENTS.

BEST WISHES FOR A SAFE 2015.

AFPM SAFETY AWARDS PROGRAM

The presentation of the AFPM Safety Award plaques is part of a comprehensive safety awards program which the Association's Safety & Health Committee has developed to promote safety performance achievements in the petroleum refining, petrochemical manufacturing, and contracting industries and to publicly recognize the excellent record of safety in operations which the industries and contractors have achieved.

AFPM Safety Awards are based on records kept for employees in accordance with OSHA record keeping requirements as defined by law and entered on the OSHA 300A summary form and API RP 754, Process Safety Performance Indicators for the Refining and Petrochemical Industries.

The Safety Awards Program honors AFPM Regular member companies operating U.S. refineries and petrochemical manufacturing plants as well as Associate member contractors working in those facilities. The program consists of the following awards.

DISTINGUISHED SAFETY PLATINUM AWARD (DSAP)

AFPM's most prestigious award, the Distinguished Safety Award, recognizes the top one or two member company refineries and petrochemical plants that have attained sustained exemplary safety performance in the domestic refining and petrochemical manufacturing industries. Recipients are chosen by a selection committee represented by members of the AFPM Safety & Health Committee. It is the selection committee's responsibility to carefully examine the safety performance records of individual plant locations using the specific screening and selection criteria detailed below.

DISTINGUISHED SAFETY GOLD AWARD (DSAG) (FORMERLY THE DISTINGUISHED SAFETY HONORABLE MENTION)

This award is presented to the top one percent of member company refineries and petrochemical plants that have exhibited superior safety performance and program innovation as determined by the DSA Selection Committee.

DISTINGUISHED SAFETY SILVER AWARD (DSAS)

This award is presented to the top four to five percent of member company refineries and petrochemical plants that have exhibited excellent industry safety performance and program innovation as determined by the DSA Selection Committee.

Screening Criteria

In order to qualify for the DSA, a facility must first pass the screening criteria as described below:

- 1.** A location must achieve the following requirements for the calendar year:
 - a. an employee total recordable incidence rate (TRIR) of 0.3 or less,

- b. a contractor total recordable incidence rate (TRIR) of 0.3 or less,
- 2.** A location must have had no employee workplace related fatalities and no non-employee (contractor, visitor, etc.) workplace related fatalities for the previous five consecutive years.
- 3.** A location must answer NO to the following questions to pass the screening criteria and be eligible to apply for the DSA award:
 - 4.** Did the location experience a community evacuation or sheltering event, or worker/contractor hospitalization (admitted for treatment) during the evaluation period?
 - 5.** Did the location experience a recordable injury where any of the following caused or contributed to the injury during the evaluation year?
 - a. Failure to isolate hazardous energy (lockout/tagout)
 - b. Opening process equipment not properly prepared for maintenance
 - c. Improperly prepared or hazardous confined Space
 - d. Improperly prepared or hazardous excavation
 - e. Any falls from height (>4 feet)
 - f. Any Tier 1 of 2 Process Safety Event (PSE)
 - g. Contact/exposure to hazardous materials (physical and chemical)
 - h. H2S, HF, Hydrocarbons, Corrosives, Electricity, Radiation, Excessive Heat, etc.
 - i. Any crane or rigging failure
- 6.** Did the location have any API Tier 1 Process Safety Events (PSE) that **required** notification to the National Response Center during the evaluation year?

Selection Criteria

After passing the screening criteria, the candidate facility's overall safety performance record will be evaluated by the selection committee based on the applicant's written application.

MERITORIOUS SAFETY PERFORMANCE AWARD

Recipients must achieve an employee total recordable incident rate of 0.6 or less at their site for calendar year 2014.

A facility will be excluded from receiving this award if it has any of the following:

- a. a Process Safety Event (PSE) that resulted in a days away from work case or a restricted/transferred case of an employee, contractor, or subcontractor.
- b. a PSE that resulted in a fatality of a third-party individual,
- c. a PSE that resulted in an officially declared community evacuation
- d. a PSE that resulted in an officially declared community shelter-in-place
- e. any workplace fatality of an employee or non-employee (contractor, visitor, etc.)

Award for Safety Achievement: 1,000,000+ Employee Hours

Recipients must have worked 1,000,000 or more employee hours without a DART case (Days away from work, restricted, or transfer) of an employee -or- workplace related fatality of an employee or non-employee (contractor, visitor, etc.) – or - one of the PSE consequences listed below during the evaluation period.

A facility will be excluded from receiving this award if it has any of the following during the evaluation period:

- a. a Process Safety Event (PSE) that resulted in a days away from work case or a restricted/transferred case of an employee, contractor, or subcontractor.
- b. a PSE that resulted in a fatality of a third-party individual,
- c. a PSE that resulted in an officially declared community evacuation
- d. a PSE that resulted in an officially declared community shelter-in-place
- e. any workplace fatality of an employee or non-employee (contractor, visitor, etc.)

The evaluation period for this award does not have to encompass an exact calendar year or an even million hour increment. For example, an award may be presented for 1,235,792 hours from February 10, 2013 to December 5, 2014. Please note that the intention of this award is to recognize achievements in 1,000,000 hour increments and therefore, awards are only presented to those facilities that have reached the next million hour threshold. In other words, a facility that received an award at last year's banquet for 1,200,000 hours worked and then worked an additional 500,000 hours without a DART case (Days away from work, restricted, or transfer) of an employee -or- workplace related fatality of an employee or non-employee (contractor, visitor, etc.), would *not* be eligible for an award this year since a cumulative total of only 1,700,000 hours was reached. A cumulative total of at least 2,000,000 would be required to receive the award again.

Award for Safety Achievement: 1+ Years

Recipients must have worked one or more years (365 consecutive days) without a DART case (Days away from work, restricted, or transfer) of an employee - or - workplace related fatality of an employee or non-employee (contractor, visitor, etc.) – or - one of the PSE consequences listed below during the evaluation period.

A facility will be excluded from receiving this award if it has any of the following during the evaluation period:

- a. a Process Safety Event (PSE) that resulted in a days away from work case or a restricted/transferred case of an employee, contractor, or subcontractor.
- b. a PSE that resulted in a fatality of a third-party individual,
- c. a PSE that resulted in an officially declared community evacuation
- d. a PSE that resulted in an officially declared community shelter-in-place
- e. any workplace fatality of an employee or non-employee (contractor, visitor, etc.)

The evaluation period for this award does not have to encompass an exact calendar year. For example, an award may be presented for 1 year without a DART case (Days away from work, restricted, or transfer) of an employee -or- workplace related fatality of an employee or non-employee (contractor, visitor, etc.) from October 10, 2012 to October 9, 2014, etc. Please note that awards are given for 365 day intervals only. In other words, an award for one year and 5 months would *not* be granted.

AFPM Safety Awards Honor Industry Achievements

WASHINGTON – The American Fuel & Petrochemical Manufacturers (AFPM) has announced the 2014 recipients of its Annual Safety Awards. This year, ExxonMobil Chemical Company's Baton Rouge Polyolefins plant was presented with the Distinguished Safety Platinum Award, the association's highest honor to a company that has attained sustained exemplary safety performance in the domestic refining and petrochemical manufacturing industries. LyondellBasell Industries' Clinton and Matagorda facilities each earned the Distinguished Safety Gold Award for their superior safety performance. Ten facilities earned the Distinguished Safety Silver Award for their excellent safety performance.

The awards recognize facility operators in the petroleum refining and petrochemical manufacturing community for their outstanding occupational and process safety achievements in safe operations.

"The safety of employees, facilities and the surrounding communities is paramount to our member companies, which is why each year we recognize sites that merit special distinction," AFPM President Chet Thompson said. "We are pleased to honor those that exceed the high standard of safety continuously sought by the petroleum refinery and petrochemical manufacturing industries."

The awards are part of a comprehensive program developed by the AFPM Safety and Health Committee to promote safe operations in the petroleum refining and petrochemical manufacturing communities.

Kevin Brown, Executive Vice President of Manufacturing and Refining at LyondellBasell Industries, and an AFPM Executive Committee member, presented the awards during the 2015 Safety Awards Event, May, 13 in Austin, Texas.

This year, 44 Regular Member companies, represented by 56 refineries and 76 petrochemical plants, were honored with a total of 249 awards. Forty-nine Associate Member companies were recognized for their excellent safety performance with 453 awards for their efforts at 141 facilities.
