

**Occupational Injury & Illness and Process Safety Event
Statistics
AFPM Safety Awards Program
Guidance Document**

**Revision Date:
November 2023**

Document Administrator: Anna Scherer

Document Type: Guideline

1.0 Introduction

Purpose and Objective:

The AFPM Safety Statistics and Awards Program is part of a comprehensive safety program developed by AFPM's Safety & Health Committee to promote accident prevention in the petroleum refining and petrochemical manufacturing industries as well as the contractors supporting them.

There are three elements of the AFPM Safety Statistics and Awards Program:

- Collection of domestic site's Occupational Injury & Illness statistics (OSHA 300A log) by site for **both company employees and contractors** (Contractor Aggregate numbers)
- Collection of domestic site's ANSI/API recommended practice 754 second edition, APRIL 2016, Process Safety Performance Indicators for the Refining and Petrochemical Industries by site.
- Annual AFPM Awards Program for Regular Operating Members and their Maintenance Contractors

Scope:

The purpose of this document is to provide guidance to petroleum refineries and petrochemical facilities as well as contractors operating in North America on the collection and reporting of Occupational Injury & Illness Statistics, Tier 1 and Tier 2 Process Safety Events, and the annual awards program.

The Guideline is not intended to replace existing reporting or information sharing processes or provide interpretations of compliance with any applicable corporate, federal, state and local regulatory standards.

2.0 Access to the AFPM's Collection Database

2.1 Occupational Injury & Illness Statistics and Awards

Each company is required to assign a Database Administrator who is responsible for assigning individuals within the company access to submit Occupational Injury & Illness Data (OSHA 300A summary log) and apply for applicable safety awards to the database.

**Occupational Injury & Illness and Process Safety Event
Statistics
AFPM Safety Awards Program
Guidance Document**

**Revision Date:
November 2023**

A company can choose to have a single individual input data for all sites or grant access to individuals at each site to input data.

The Database Administrator for Occupational Injury & Illness Statistics has the following responsibilities:

- Grants and manages access to individuals within the company so they may submit Occupational Injury and Illness statistics (OSHA 300A log) for both company employees and contractor's aggregate data for each site.
- Ensures contact information of the site and individuals granted access to the database is correct.

Please send the contact information of the Occupational Injury and Illness Database Administrator to Anna Scherer, ascherer@AFPM.org.

AFPM will hold a [webinar](#) at 11:00 Eastern on **January 10, 2024** to instruct the Database Administrators and other individuals responsible for data submissions the process by which they can submit their OSHA data and apply for awards for their companies. Please note this is a refresher as the process has **NOT** changed. (Refer to section 3.1 to review the submission process).

2.2 API 754 Process Safety Event Statistics Collection

Each Company is required to assign a Database Administrator who is responsible for assigning individuals within the company access to submit API 754 Process Safety Event Metrics to AFPM. A company can choose to have a single individual submit data for all sites or grant access to individuals within the company to submit.

The Database Administrator for Process Safety Event (PSE) metrics has the following responsibilities:

- Grants and manages access to individuals within the company to submit Tier 1 and Tier 2 PSEs for their company sites.
- Ensures contact information of the site and individuals granted access to the database is correct.

NOTE: We will not be collecting international site data

Please send the contact information of the API 754 Process Safety Metrics Database Administrator to Anna Scherer, ascherer@AFPM.org.

**Revision Date:
November 2023**

2.3 Contractor Safety Achievement Awards

Each contractor company who plans to apply for a Contractor Achievement Award is required to assign a Database Administrator who is responsible for assigning individuals access within the company to apply for Contractor Achievement Awards.

The Contractor Achievement Award Database Administrator is responsible for the following:

- Grants and manages access to individuals within the company to Apply for a Contractor Achievement Award.
- Ensures contact information of the individuals granted access to the database is correct.

3.0 Statistic Collection and Awards Application Process

3.1 Occupational Injury & Illness Statistics

[Safety Portal](#)

Everyone who has access to the database is assigned an individual username and password.

For each site listed, AFPM is asking for ***two different data sets***, one is the OSHA 300A summary log for company employees and the second is the OSHA 300A summary log for the contractors (Contractor Aggregate). You **MUST** submit both company OSHA data along with OSHA data for your contractors to be eligible to apply for the AFPM Safety Awards.

**Occupational Injury & Illness and Process Safety Event
Statistics
AFPM Safety Awards Program
Guidance Document**

**Revision Date:
November 2023**

	1 Employees	2 Contractor Aggregate
Total Hours Worked	<input type="text"/>	<input type="text"/>
Total Fatalities	<input type="text"/>	<input type="text"/>
Cases w/ Days Away from Work	<input type="text"/>	<input type="text"/>
Cases w/ Job Transfer or Restriction	<input type="text"/>	<input type="text"/>
Recordable cases	<input type="text"/>	<input type="text"/>
Days w/ Job Transfer or Restriction	<input type="text"/>	<input type="text"/>
Days Away from Work	<input type="text"/>	<input type="text"/>

1. Employee Data - In this column, provide safety data for employees only. This data is required to qualify for an award.
2. Contractor Aggregate Data- In this column, provide aggregate totals for all contractors at the respective plant. This data is ALSO required to qualify for an award.

The information requested by AFPM is consistent with the OSHA recordkeeping rule 29 CFR 1904, effective as of January 1, 2002 and is the exact data found on a site’s OSHA 300A Summary log.

Section 3: Award Criteria

Were there any employee or contractor hospitalizations?

Yes No

Did any company employee or contractor experience a recordable injury where any of the following high-risk activities took place:

- Failure to isolate hazardous energy
- Opening process equipment improperly prepared for maintenance
- Improperly prepared or hazardous confined space
- Improperly prepared or hazardous excavation
- Any falls from height (> feet)
- Any Tier 1 or 2 PSE
- Contact/exposure to hazardous materials
- H2S/HF/hydrocarbon/corrosives/electricity/radiation
- Crane or rigging failure
- Caught by machinery or struck by debris, equipment, or falling objects
- Electrical work or hot work on equipment not verified as hydrocarbon free
- Failure to verify work permit
- Failure in PPE chosen for the task or the incorrect PPE for the task
- Use of the correct tool incorrectly or use of incorrect tool for the task

Number of Cases

Total number of deaths	Total number of cases with days away from work	Total number of cases with job transfer or restriction	Total number of other recordable cases
_____	_____	_____	_____
(G)	(H)	(I)	(J)

Number of Days

Total number of days away from work	Total number of days of job transfer or restriction
_____	_____
(K)	(L)

3.1.1 Safety Awards Process

Individuals who have access to submit Occupational Injury and Illness statistics need only to click on the ‘Approve’ button to submit their data. If you meet all the AFPM criteria, you will automatically have your information applied to receive the Safety Achievement Award. These individuals will also have the responsibility of reviewing/approving Contractor Achievement Award submissions for their sites.

**Occupational Injury & Illness and Process Safety Event
Statistics
AFPM Safety Awards Program
Guidance Document**

**Revision Date:
November 2023**

1. **Apply for an Award** - Most awards can be applied for online which includes: Safety Achievement Award and the Contractor Achievement Award.
2. The Distinguished Safety Award (DSA) **MUST** have a filled-out application sent in to [Anna Scherer](#) at AFPM by January 31, 2024.

3.1.2 Approving Contractor Achievement Award Applications

AFPM member maintenance contractor companies that work at least **20,000 hours** and complete the below information from their OSHA 300A log on the AFPM Safety Portal can apply for the Contractor Safety Achievement Award.

Contractor Awards
Criteria 2023.docx

Contractors apply for these awards during the months of January and February of each year. Each operating member company will have the opportunity to approve or deny each award. *Just because a contractor qualifies for the award doesn't mean the site has to grant the award. This is left up to the discretion of the site and the company.*

AFPM will email all contacts that have access to this portion of the database notifying them that they need to approve or deny all contractor awards.

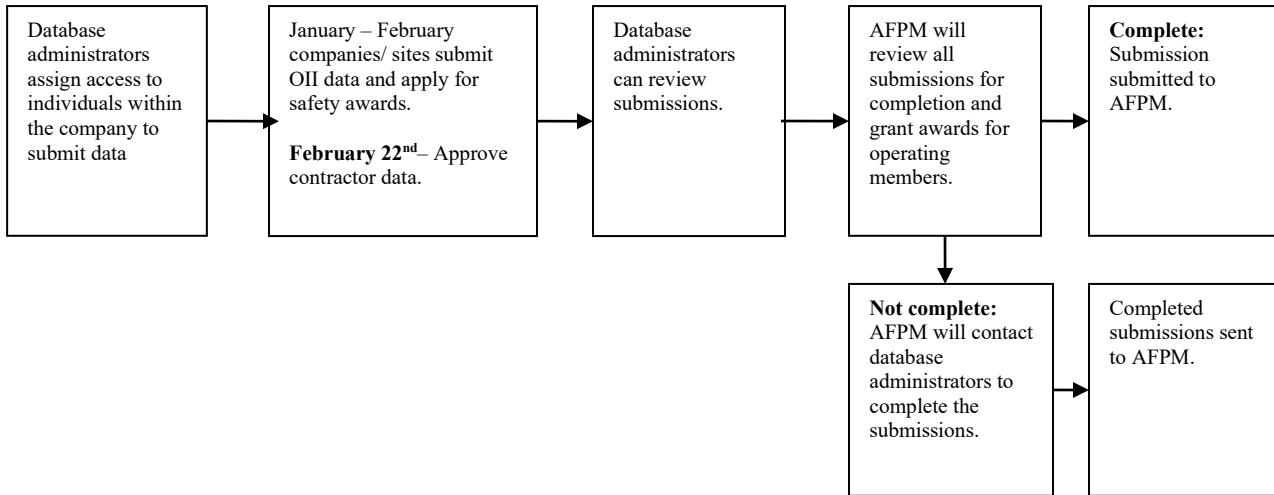

To approve or deny a contractor achievement award, click on the pencil to the left of the date. A pop-up box will open with the statistics, severity screening data, and participation and best practices submitted by the contractor. Either check the box to approve or deny the award and press submit. You must perform this process for all applications with the status of 'pending.'

3.1.3 OII Review and Approval Process

3.2 Process Safety Event Data Submission

Everyone who has access to the database is assigned a username and password.

A company can submit all of their site's PSEs through the designated Excel form and email that sheet to either [Anna Scherer](#) at AFPM or [Vault Consulting](#).

PLEASE SEE EXCEL SPREADSHEET FOR PSE SUBMISSIONS OR EMAIL ANNA SCHERER (ASCHERER@AFPM.ORG) TO OBTAIN

We will be using the 3rd edition of ANSI/API Recommended Practice 754, *Process Safety Indicators for the Refining and Petrochemical Industries, 2021* to collect data. To submit through the Excel file, companies must input a single line for each Tier 1 and Tier 2 PSE on the Event and Consequence tab of the spreadsheet. On the Facility Information tab, there is a column to the far right of the spreadsheet to indicate no Tier 1 PSE, no Tier 2 PSE, or neither for a particular facility. AFPM accepts **ONLY** refining and petrochemical manufacturing site data. We do not collect data from pipelines or terminals.

References for Reporting Process Safety Events:

Information on Tier 1 and Tier 2 Process Safety Indicator Definitions and examples of PSEs:

- ANSI/API Recommended Practice 754, *Process Safety Indicators for the Refining and Petrochemical Industries, 2021*. (Find API RP 754 at: <http://publications.api.org/Default.aspx>)

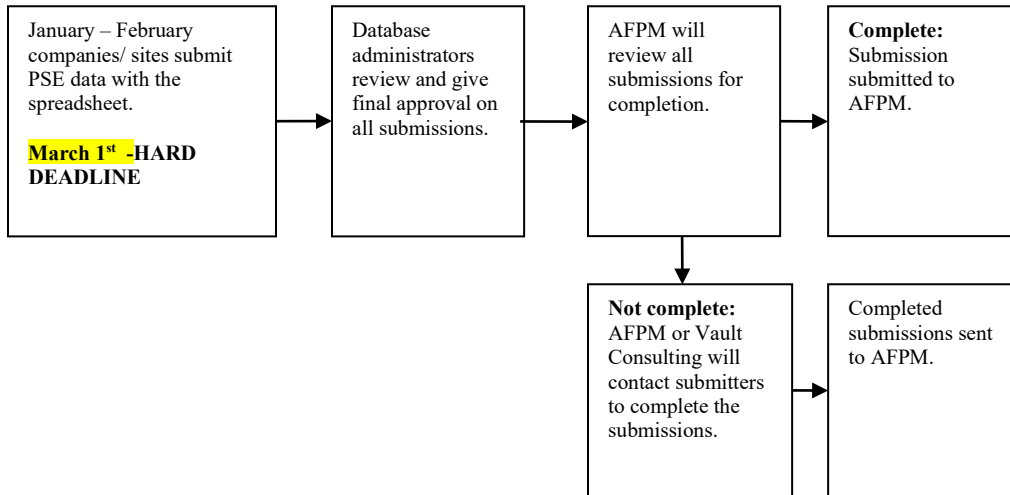

PLEASE SEE: API Guide to Reporting Process Safety Events Reference Section

3.2.1 PSE Submittal and Review Process

3.3 Contractors Applying for a Contractor Achievement Award

AFPM member maintenance contractor companies who work at least **20,000 hours** at an eligible (See section 4.4 for more details of this award).

If you are granted access by your company database administrator, you will receive a username and password.

To apply, pick the company and site from the list and submit the OSHA 300A Summary log for your company working at that site and designate how many flags you would like to order for that award.

The refining or petrochemical company will be notified of the application in their queues on the AFPM Safety Portal and will approve or deny the application.

4.0 Award Criteria

**Occupational Injury & Illness and Process Safety Event
Statistics

Guidance Document**

**Revision Date:
November 2023**

See Appendix 2 for a complete listing of AFPM member companies and their sites.

PLEASE SEE ATTACHED FILLABLE PDF DSA APPLICATION

4.1 Distinguished Safety Award

The AFPM Distinguished Safety Award (DSA) is the association's most prestigious safety award that addresses both occupational and process safety. The application for the DSA includes both qualitative and quantitative components.

A Selection Committee made up of Safety professionals reviews and discusses each application. Applicants may receive the following awards based on their applications. Sites that are in the running for the DSA and the Elite Gold award will be asked to attend an in-person interview at the APFM Annual Meeting, March 10 -12, 2024.

- The Distinguished Safety Award represents the top sites in industry that have demonstrated exemplary, long-term sustainable safety performance, program innovation, and leadership.
- The **NEW** Elite Platinum recipients represent the top sites in industry that have also demonstrated exemplary, long-term sustainable safety performance, program innovation, and leadership. They will be chosen for a DSA interview but were not awarded the DSA.
- The Elite Gold recipients represent the top 5% in industry that have demonstrated superior and consistent safety performance, program innovation, and leadership.
- The Elite Silver recipients represent the top 10% in industry that have attained top industry safety performance for the application year and have demonstrated excellent program innovation and leadership over time.

SCREENING CRITERIA (PART A)

In order to qualify for the DSA, a facility must first pass the following screening criteria.

- a. A location must achieve the following requirements for the calendar year:
 - a. an employee total recordable incidence rate (TRIR) of 0.30 or less,
 - b. a contractor total recordable incidence rate (TRIR) of 0.30 or less,

**Occupational Injury & Illness and Process Safety Event
Statistics
AFPM Safety Awards Program
Guidance Document**

**Revision Date:
November 2023**

- b. A location must have had no employee workplace related fatalities and no non-employee (contractor, visitor, etc.) workplace related fatalities for the previous five consecutive years.

A location must answer **NO** to the following questions to pass the screening criteria and be eligible to apply for the DSA award:

- c. Did the location experience a community evacuation or sheltering event, or worker/contractor hospitalization (admitted for treatment) during the evaluation period?
- d. Did the location experience a **recordable injury** (employee AND/OR contractor) where any of the following caused or contributed to the injury during the evaluation year?
- Failure to isolate hazardous energy
 - Opening process equipment improperly prepared for maintenance
 - Improperly prepared or hazardous confined space
 - Improperly prepared or hazardous excavation
 - Any falls from height (>4 feet)
 - Any Tier 1 or 2 PSE
 - Contact /exposure to hazardous materials
 - H2S/HF/hydrocarbon/corrosives/electricity/radiation
 - Crane or rigging failure
 - Caught by machinery or struck by debris, equipment, or falling objects
 - Electrical work or hot work on equipment not verified as hydrocarbon free
 - Failure to verify work permit
 - Failure in PPE chosen for the task or the incorrect PPE for the task
 - Use of the correct tool incorrectly or use of incorrect tool for the task
 - Deliberately bypassing safeguards or interlocks
 - Community evacuation or sheltering event
- e. Did the location have any API RP Tier 1 Process Safety Events (PSE) that **required** notification to the National Response Center during the evaluation year?
- a. PSE requirements, No Tier 1 or 2 PSEs that resulted in a recordable injury
 - b. No Tier 1 events that required notification to the National Response Center

It is recommended to bullet point responses where appropriate.

Selection Criteria

After passing the screening criteria, the candidate facility's overall safety performance record will be evaluated by the selection committee based on the applicant's written application.

**Occupational Injury & Illness and Process Safety Event
Statistics
AFPM Safety Awards Program
Guidance Document**

**Revision Date:
November 2023**

AWARD LEVELS

- Distinguished Safety Award (Top Applicants)
- Elite Platinum Award (Sites that receive a DSA interview but do not win the DSA)
- Elite Gold Award (Top 5%)
- Elite Silver Award (Top 10%)

Applicants who do not receive the DSA may be considered for the Elite Platinum, Elite Gold or Elite Silver Safety Awards which represent the top five to ten percent of industry top safety performers. These awards are presented to those DSA applicants that pass the DSA Screening Criteria and in the judgment of the Selection Committee, have exhibited superior and excellent safety performance and program innovation.

DSA Coins

Distinguished Safety Award winners along with the Elite Platinum, Elite Gold and Silver award winners will be given the opportunity to order special DSA coins for their winning sites. The coins will be made to order with a 50-count minimum and will range in price from \$5.00 - \$8.00 per coin depending on how large an order is made. After the winners are selected, you will be contacted by an AFPM staff member to inquire as to whether your site would like to order coins.

DSA Hard Hat Decals

Distinguished Safety Award winners along with the Elite Platinum, Elite Gold and Silver award winners will be given the opportunity to order special DSA hard hat decals for their winning sites. The decals will be made to order with a 50-count minimum and will be \$35 per 50 – count order. After the winners are selected, you will be contacted by an AFPM staff member to inquire as to whether your site would like to order decals.

DSA Flags

Distinguished Safety Award winners, along with the Elite Platinum, Elite Gold and Silver award winners, will be given the opportunity to order special flags. These are \$250 apiece and will be sent directly to sites.

4.2 Safety Achievement Award

In order to qualify for the **Safety Achievement Award**, a facility must first pass the following screening criteria.

**Occupational Injury & Illness and Process Safety Event
Statistics
AFPM Safety Awards Program
Guidance Document**

**Revision Date:
November 2023**

1. A location must have had no employee workplace related fatalities and no non-employee (contractor, visitor, etc.) workplace related fatalities for the reporting year.
 - a. *A location must answer **NO** to the following questions to pass the screening criteria and be eligible to apply for the Safety Achievement award:*
2. Did the location experience an injury to an **employee and/or contractor** that required hospitalization (admitted for treatment) during the evaluation period?
3. Did the location experience a **employee and/or contractor recordable injury** where any of the following caused or contributed to the injury during the evaluation year?
 - Failure to isolate hazardous energy
 - Opening process equipment improperly prepared for maintenance
 - Improperly prepared or hazardous confined space
 - Improperly prepared or hazardous excavation
 - Any falls from height (>4 feet)
 - Any Tier 1 or 2 PSE
 - Contact /exposure to hazardous materials
 - H2S/HF/hydrocarbon/corrosives/electricity/radiation
 - Crane or rigging failure
 - Caught by machinery or struck by debris, equipment, or falling objects
 - Electrical work or hot work on equipment not verified as hydrocarbon free
 - Failure to verify work permit
 - Failure in PPE chosen for the task or the incorrect PPE for the task
 - Use of the correct tool incorrectly or use of incorrect tool for the task
 - Deliberately bypassing safeguards or interlocks
 - No community evacuation or sheltering event
4. Did the location experience a community evacuation or sheltering event during the evaluation period?
6. Did the location have any API RP Tier 1 Process Safety Events (PSE) that **required** notification to the National Response Center during the evaluation year?

A site that applies for this award has the option of purchasing an award banner at the cost of **\$150.00** for each banner or hard hat decals that will be sold in increments of 50 for **\$35.00** per 50. The site will be invoiced upon receiving their awards in June/July.

4.3 Contractor Safety Achievement Award

This award recognizes maintenance contractors working a minimum of **20,000 hours** per calendar year at a regular member facility.

Section 1: Injury & Illness Data		
The contractor company at the location submits this information for data analysis only		
Total Hours Worked		
Total Fatalities (G)		
Cases with Days Away From Work (H)		
Cases with Job Transfer or Restriction (I)		
Other Recordable Cases (J)		
Days Away From Work (K)		
Days with Transfer or Restriction (L)		
DART		
Total Recordable Incident Rate		
Section 2: Incident Severity Screening Criteria		
The contractor company at the location must answer NO to the following questions to be eligible for the award		
Did the contractor company at the location experience an event where an employee was hospitalized (admitted for treatment) during the evaluation period?	Yes	No
Did the contractor company at the location experience an event where an employee had an amputation during the evaluation period?	Yes	No
Did the contractor company at the location experience an event that resulted in a workplace fatality?	Yes	No
Did the contractor company at the location experience a recordable injury where any of the following caused or contributed to the injury during the evaluation period:	Yes	No
<ul style="list-style-type: none"> • Failure to isolate hazardous energy (lockout/tag out)? • Opening process equipment not properly prepared for maintenance? • Improperly prepared or hazardous confined space? • Improperly prepared or hazardous excavation? • Any falls from height (>4 feet)? • Any Tier 1 or 2 Process Safety Event (PSE) • Contact/exposure to hazardous materials (physical and chemical) such as: <ul style="list-style-type: none"> ○ H2S, HF, Hydrocarbons, Corrosives, Electricity, Radiation, Excessive Heat, Etc.? • Any crane or rigging failure? • Caught by machinery or struck by debris, equipment, or falling objects • Electrical work or hot work on equipment not verified as hydrocarbon free • Failure to verify work permit • Failure in PPE chosen for the task or the incorrect PPE for the task • Improper use of the correct tool or use of incorrect tool for the task • Deliberately bypassing safeguards or interlocks • Community evacuation or sheltering event 		
Section 3: Participation and Best Practices		
The contractor company at the location must meet a minimum score of 50 points to be eligible to apply for the award		
Site Safety Processes / Initiatives (Contractor Safety Forums, Focus Teams, etc.)		
<ul style="list-style-type: none"> • Implements timely with an active participation level in the development/deployment 		10
<ul style="list-style-type: none"> • Implements as required with no additional involvement 		5
<ul style="list-style-type: none"> • Doesn't support or promote with minimal required participation 		0
Audit Process / Employee Observation		
<ul style="list-style-type: none"> • Most employees and supervisors are involved and follow-ups are completed with action plans 		10
